POSSE PROJECT

Imagine a world where the boundary between myth and reality blurs in the heart of North America's last untouched forest.

The XRPL Forest

Imagine a world where myth and reality blur in the heart of North America's last untouched forest. The XRPL Forest faces an assault by corporate greed and their zombie slaves. "The Posse," a coalition of forest animals and enlightened humans, battles for their home and way of life.

Posse Project Highlights

- Real World Art
- NFT's
- Unique Community Engagement
- Novel Earning Opportunities
- Rewards
- Cross Chain
- Open Source Solutions For XRPL Meme Devs & Artists
- Hooks & Smart Contracts...

The Devs

Mama Opossum, Jane, the artist and Papa opossum, Todd, the dev. This is Mama's first project in Web3. Papa has been in Web2 & 3 for years, working on XRPL & Cardano.

Comment

We see the meme culture as the voice and fulcrum of the people against the globalist and oligarchs who seek to control the blockchains and ledgers.

The Project

The POSSE Project is multi faceted. The art is all hand done by Jane and is the backbone of the project. Her illustrations and puppets bring a unique meta to a unique culture. The use of puppets to convey ideas and build community in web3 is just as unique as the idea that you get the physical art that your NFT is of. That is what you get with a POSSE NFT! If you pay the shipping(USD, XRP, POSSE) you get the original art and a hand drawn Paper Puppet. The NFTs also boost your POSSE LP Rewards by 0.2%(1% max boost per wallet). Hopefully puppet owners will take part in the fun of making and sharing memes with us.

Delivering free technological solutions to projects that help strengthen their project is another facet. This is the domain of Todd and his goal is to deliver tools that help projects build their tech stack and the people take control of the chains.

The third facet is to help bring unity and collaboration between the projects on XRPL, Cardano, and EVM chains. This is how we will build the influence the people deserve on the chains that will control our world.

\$POSSE Coin

\$POSSE coin is an artist support and “utility” token. If you like the art and want to show support, hold the \$POSSE coin and participate in the Discord.

"Utility"

- Gain access to the Posse Den Discord, the website and events
- Order Posse Puppets
- Receive discounts on Posse Puppets. Your discount is based on the percentage of POSSE LP pool contribution you hold.
 - 0.1-2% get 3% off
 - 2-3% get 6% off
 - 3-4% get 9% off
 - 4-5% get 13% off
 - 5%+ get 15%
- For two years \$POSSE LP holders will get weekly rewards of \$POSSE tokens

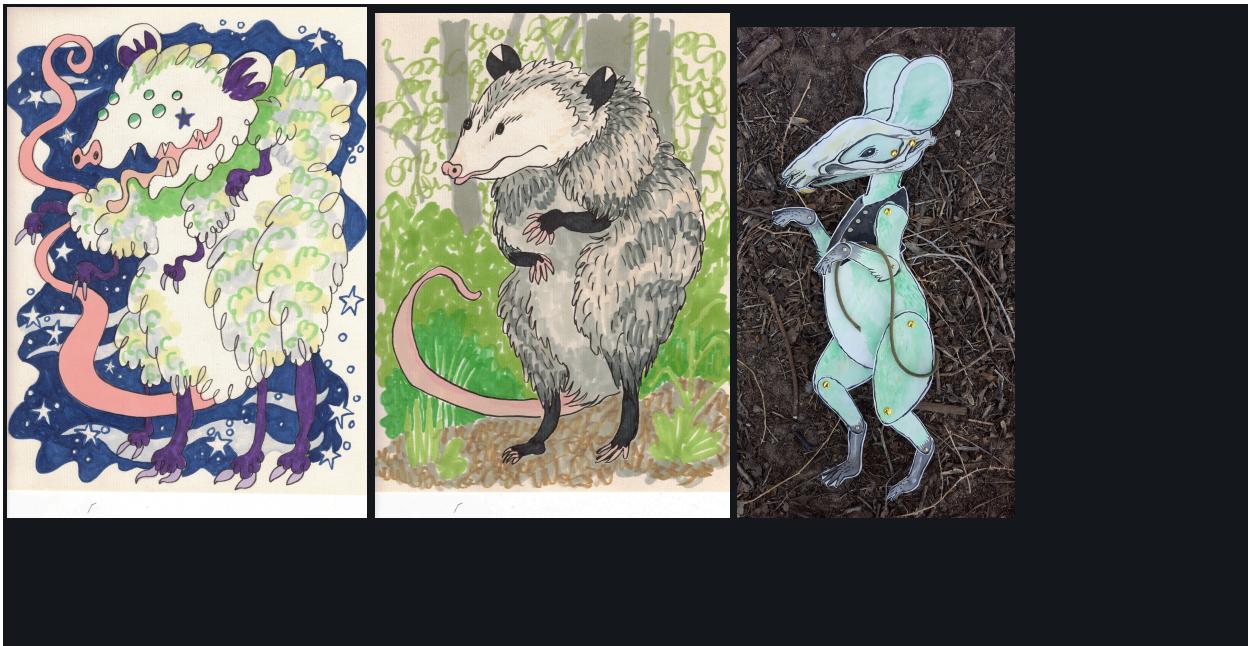

- NFT holders get a 0.2% multiplier per NFT towards their rewards. Max of 1% or 5 NFTs.
- Eligible wallets must
 - have less than 5% of the total LP token supply
 - held LP tokens for the last 7 days
- 177,175 of \$POSSE tokens will be distributed weekly to eligible wallets
 - The 177,175 \$POSSE will be divided evenly between the total eligible percentage points.
- In this example there are 2 eligible holders. Wallet 1 has 120 points, Wallet 2 has 23 points, Wallet 3 is not eligible > 5%.
 - $177,175/(120+23) = 1238.99$ \$POSSE per point
- | Wallet 1 | Wallet 2 | Wallet 3 |
|-------------------|------------------|--------------|
| 1.2% of LP | 0.23% of LP | 98.57% of LP |
| 148678.32 \$POSSE | 28496.67 \$POSSE | 0 |
- POSSE is a decentralized token on the XRPL. The POSSE Dev are not responsible for any price action on POSSE. The POSSE Devs have no control of the token or exchange platforms. Trade at your own risk.

NFTs & Puppets

The POSSE NFTS are of the critters of the XRPL Forest. Batches of 10 characters will be released as they are ready. Each character is hand drawn and comes with the original physical art and one hand drawn assembled paper puppet. The puppets are great for stop motion memes, decoration, and play.

The POSSE project will be collaborating with other XRPL projects to produce paper puppets for their NFTs and Mascots. Affiliated Projects NFT holders can order a paper puppet of their NFT. NFT holders can also allow holders of \$POSSE or an affiliated projects token to order a puppet of their NFT. NFT holders that open their NFT Puppet to the token holders will get 5% royalties of all sales related to that NFTs Puppet. This is another revenue stream from the NFT. The 5% comes from the Founders cuts of sales. These are real physical products purchasable by the NFT and eligible coin holders. The puppets are copies of the NFT but with movable joints.

We encourage community members to share their creativity and imagination with their puppets on social media.

Puppets can be requested and ordered on the web site. Shipping costs are not included in the NFT price. Shipping can be paid in USD, XRP and eligible affiliated tokens.

The \$POSSE Den

Holders of \$POSSE are the Animals of the forest. We have a secluded den on Discord to take refuge in and discuss. The \$POSSE Den is also where you can order your Puppet. We share the Discord with other Puppet projects. This will not be a space for speculators and such notions will be dispelled. The door will be open to artists, developers, followers of the natural ways and supporters of the forest.

Development Of Open Source Creator Tools

- **Web App Tools**
 - Token gated web site development tools.
 - Control access to parts of the site based on holdings
 - Apply discounts and special features based on holdings
 - Bill in XRP and XRPL tokens
 - Create and send NFTs
 - Distribute payments
 - Distribute Rewards
 - Community Voting
- **Discord Xaman Verifier and Tipper**
 - A guild app that allows a channel to:

- Connect to a Xaman wallet
 - Check holdings
 - Token and NFT gates
 - Grant Roles
- **Backend Templates and Servers**
- **Smart Contracts/Hooks(if/when possible)**
 - Management of project wallets. Goals are to increase trust and simplify processes.
 - Manage LP
 - LP Giveaways
 - XRP Revenue Distribution
 - DAO Tools
 - This solution will be open sourced as well
 - For now trust the ledger bro!
